

Smart ducted air conditioning units for a smart home

*It's the
smartest way
to get a smart
home.*

For degree-perfect climate control
and comfort in every room

Your smart home journey begins with an iZone Smart Air Conditioning System

With iZone's complete range of smart ducted reverse-cycle air conditioners, you can forget about traditional single thermostat air conditioners.

An iZone ducted reverse cycle air conditioner is a multiple thermostat system that delivers higher levels of comfort and efficiency than standard single thermostat air conditioners.

iZone Smart Air Conditioning gives you greater control from anywhere, anytime for greater efficiency and savings.

The iZone climate control system is highly affordable, efficient and effective. It lets you control your air conditioning via your smart device or voice, so the whole family can come home to the perfect temperature.

With an iZone Smart Air Conditioning system, you'll be equipped with the most precise, efficient, intuitive air conditioning control system around. But that's just the start - you'll have the foundation of the ultimate customisable, upgradeable iZone Smart Home automation system.

Smart ducted air conditioning units for a smart home

iZone offers a complete range of Smart Ducted Reverse Cycle Air Conditioners. Our units are the ultimate in-home comfort and total climate control.

The iZone Inverter system provides cooling, heating and dehumidification while filtering the air. It provides air conditioning to suit your lifestyle while minimising costs.

Plus iZone smart ducted air conditioning units use latest technology such as 3D DC Inverter control, which deliver outstanding energy efficiency ratings and are compliant with the latest government regulated Minimum Energy Performance Ratings (MEPS).

Compliant with MEPS Ratings.

Compliant with the latest government regulated Minimum Energy Performance Ratings (MEPS)

Longer coil life with Gold Fin Technology

Our outdoor units come standard with Gold Fin technology. The benefits of the application of a golden hydrophilic coating applied to the condenser coil, include:

- improves the overall life of the air conditioner
- improved heat efficiency by accelerating the defrosting process
- helps protect the condenser coils from external damage due to the accumulation of water, acids, and other salts from the atmosphere
- it's non-toxic and 100% environmentally friendly

Peace of mind.

Enjoy the peace of mind of knowing your smart home system is covered by a single manufacturer's warranty.

YEAR WARRANTY

Simple, smart-home climate control

Degree perfect temperatures in every room keeps everyone happy

Put an end to arguments over the perfect temperature. With iZone, you can have up to 12 touchscreen controllers and/or 14 sensors or zones, so you can set temperatures on a room-by-room basis. Pick a room, pick a temperature.

Enjoy the temperature you want to within 1.0 degree.* Other systems fluctuate by between 2.0 and 3.0 degrees.

With wireless wall sensors, iZone monitors and maintains the temperature in real time, in every room, automatically adjusting the airflow when each room hits your ideal temperature.

iZone 3D DC synchronous inverter technology provides rapid cool-down or warm-up to your perfect temperature sooner.

You can enjoy state-of-the-art wireless smart home precision and control, whether you're installing a new air-conditioning system or retrofitting an old one.

iZone looks as good as your home feels

iZone smart home products don't just look smart, they are smart! Our precision engineered smart home switches, controllers and sensors deliver unrivalled efficiency throughout your home.

By providing cooling and heating only when and where you need it, iZone climate control systems maximise energy efficiency while reducing running costs. They save you money and keep you comfortable all year round.

Smart Climate Controllers

iZone gives you total temperature control of each room or zone individually. iZone can operate up to 14 zones on any one system and every room or zone can be at the temperature you want, all the time.

Hands-free smart home control? Now you're talking

With an iZone Smart Home system you can use Google Home, Amazon Alexa and Siri to control all your home's smarts with just your voice. Air conditioning. Lights. Irrigation. Garage door. Rollerblinds. Entertainment. The works. Control everything individually or set up single-command smart home favourites, scenes or routines.

"Hey Google, it's movie time."

The lights dim and change colour.
The roller blinds close.
The TV switches on.
The air con turns on.
All you need is the popcorn.

iSave. Free, natural night cooling

The iSave night cooling system and iZone will save you thousands of dollars by drawing in cool night air from outside (instead of using your air-con unit) to cool your home in summer.*

*iSave is optional. Requires extra hardware

The smartest way to turn your house into a smart home

With an iZone Smart Air Conditioning System you also get a smart home automation system for the same price as a standard ducted reverse-cycle system.*

That's not just greater control and energy efficiency, but greater savings and comfort all year round.

With an iZone Smart Air Conditioning Bundle you'll get:

- The best air conditioning controller available - iZone 435
- Temperature sensors in every room
- Smart downlights or lamps with 16 million colours to choose from
- Smart Switches with occupancy, brightness and temperature sensing
- Smart Garage Door controller
- Smart Power Monitoring
- Smart Plugs for "dumb" appliances
- Smart Retic controller with up to 8 stations

Plus, you can control everything with your smart device or voice.

Ask your local Smart Alec about how you can get an iZone Smart Home Bundle for the same price as a standard ducted reverse-cycle system!

iZone Smart Switches
