

# iZone Nite Zone Controller Kit

Part number: C210K

**The Nite Zone Controller allows for more homeowners to enjoy the luxury of zoning their ducted air conditioning system at an affordable price.**

This 6-zone controller integrates seamlessly with all major brands of ducted AC systems and offers a simple LCD push button user interface to control the AC unit. The **Nite Zone Controller** gives homeowners the ability to open/close air to individual rooms, allowing them to install a smaller more cost-effective AC unit.

## iZone Nite Zone Controller Features

- Integrates with **all major brands** of ducted AC reverse cycle units.
- Entry level wall controller that offers affordability and ease of use.
- A wired wall controller with the ability to adjust set points, airflows, open/close zones, adjust fan speeds and AC mode control.
- Easy to use LCD screen with 9 push buttons.
- Choose from a list of 10 programmed zone names.
- Adjust airflow percentages for individual zones in 5% increments.
- Easy to install. A single clip-in CAT5e cable as opposed to an individual cable down the wall for every damper motor.
- Built in temperature sensor on the wall controller for remote AC temperature control.
- Utilise a standard electronic constant zone or fixed constant zone.
- An iZone Smart Hub can be added to the Nite Zone Controller allowing remote control (with wifi/4G connection) of the unit and other smart devices through the iZone Home app.
- Expand to other smart devices by adding an iZone Smart Hub to the system.
- Does NOT offer automated zone control but can open/close a zone.

**iZone Nite Zone Controller, the affordable way to enjoy savings.**

# iZone Nite Zone Controller Kit

Part number: C210K

## What is included in a Nite Zone Controller kit

6 zone CPU module (C155)

iZone Nite LCD wall controller (CLCSW)

24VAC mini transformer (CT24ACM)
